

The Experts' Choice.

Naturally boosted all-purpose, organic fertiliser. Concentrated for faster, better results.

- 100% natural & organic
- Safe to use
- Environment friendly
- Pelletised - Easy to use
- Improved soil structure
- Encourages earthworm & soil microbial activity
- Increases root development
- Introduces a full balanced range of nutrients

Rapid Raiser is manufactured from composted poultry manure to a strict specification, and is formulated before being pelletised and heat treated via our processing plant.

Rapid Raiser is an ideal general purpose organic fertiliser for use at planting stage to help promote early growth, while for established plants Rapid Raiser provides fast, healthy and sustained growth.

A highly concentrated, natural product, it is pathogen and weed free and is pelletised for easier and cleaner handling.

Rapid Raiser encourages the development of earthworm and microbial activity leading to healthy, well structured soils.

Available in 40kg, 1 tonne bulk bags and bulk.

Application

Horticulture: 1.0-1.2 tonnes per hectare for pre-planting all types of fruit and vegetables

Parks and Gardens: 400-600kg per hectare for pre-planting turf and lawns; 100g per square metre for established garden areas; 100g per established rose bush every 10 weeks

Cereals and Grass: 100-300kg per hectare for pre-plant cereals; and 100-300kg per hectare for established grass.

Farmed animals must not be allowed access to the land for at least 21 days following application to the land.

Fertiliser containing organic material obtained by processing natural products.

Analysis		%W/W
Nitrogen (N)	as Organic	3.0
Phosphorus (P)	as Citrate Soluble	2.0
Potassium (K)	as Organic	1.7
Calcium (Ca)	as Organic	7.0
Magnesium (Mg)	as Organic	0.65
Sulphur (S)	as Organic	2.0
Iron (Fe)	as Organic	0.2
Zinc (Z)	as Organic	0.035
Manganese (Mg)	as Organic	0.05
Molybdenum (Mo)	as Organic	0.0002
Boron (B)	as Organic	0.0003
Copper (Cu)	as Organic	0.0006
